

## DISCUSSION GUIDE

Presented by:

3screens.com

**This is intended for use immediately, or within twenty-four hours after the assembly.**

Allow 10-15 minutes to discuss the following questions:

1. What did you like best in the assembly program? Why?
2. Several kids did amazing things. Which did you think was best of all, and why?
3. Do you think that anyone told any of those kids that they probably should have an easier goal? How important was it to have a “Yes We Can” attitude?
4. Does anyone here have a big idea that you’re working on?
5. There are lots of ways to help people without inventing things or raising lots of money. Let’s talk about some everyday problems that we can fix with a “yes we can” attitude.
6. What were Will Lourcey’s four steps? (Let them answer)  
1. (See a need) 2. (Make a plan) 3. (Gather friends) 4. (Change the world!)
7. What can we fix as a class? Class project ideas:

Websites: [imagiroo.com](http://imagiroo.com)  
[bkfk.com](http://bkfk.com) (A kid inventors and marketing company)
